

Gideon,

Peggy and I want to thank you and your crew for the wonderful job you did on the transformation of our one-story house into a beautiful two-story home. We are so amazed with the way our home looks that we regularly walk outside just to stare. We have received so many compliments from neighbors and friends who can't believe the difference from before to after.

As you well know from our first meeting, both bad personal experiences and horror stories about contractors had kept us from going forward with any construction. However, once we decided on Gidch Construction, we have not been disappointed. In fact, we could not be happier. Your daily presence and personal attention on the job, concern for our satisfaction, the fact that you answered our phone calls or always called back quickly, the pride you take in your work, and your personal integrity have made this a totally positive experience.

As we watched you and your crew work we have been amazed by the quality of your workmanship, the fact that you never cut corners, your knowledge and foresight, and ability to not sacrifice quality while moving quickly. We are truly grateful to you and your crew for doing such a great job.

Gideon, we believe the best compliment we can give you is to tell others about how happy we are with the job you did. It would be our pleasure to be used as a reference. Please do not hesitate to give our names and phone number to anyone.

Thanks again for everything.

Peggy &
Joe Luyse
