Gidch Construction, Inc.
1556 Ocean Avenue
Bohemia, New York 11716

Dear Gideon,

Both my husband and I wanted to take the time to write to you and thank you for the work you did in our home. Everything is top notch. The first job you did was in the summer of 2003. You re-built an extension off the back of the house. You and your crew showed up every day that you said you would, on time, and completed the job in the time frame you originally quoted. The entire process was a smooth one. This put the seed in our minds to have you do additional work.

The next job was our dormer, master bedroom and bath, with attached garage, new portico, siding and roof which was in August 2005. This was a massive project. Every room in the house was touched in some fashion because of the construction, but your crew and subcontractors were terrific. During the entire process your crew and even your subs would clean up each day, which included outside as well as inside. Every subcontractor followed the next. There was never any down time of work being conducted. In addition, you walked us through every step of the way and continued to be available to us by phone whenever needed. We were amazed of how fast the project progressed. Each day we knew what was scheduled and what was to be worked on for that day. This really put us at ease. Living through construction is hard, but the final product is all worth it.

I have and will continue to recommend you to family and friends and to anyone else that will listen. Your work product speaks for itself. We have a beautiful house -- the house that Gidch built -- and we continue to enjoy it each and every day.

Sincerely,

Maria & Ken Siffert
